Waste Hauling, Inc.
129 Wyckles Road
Decatur, Illinois 62522

Gentlemen:

Your solid waste disposal facility located west of Decatur was inspected on June 16, 1981, by Richard Johnson, representing this Agency.

The inspection disclosed the following condition, which constitutes a violation of the Illinois Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board's Solid Waste Rules and Regulations:

... Daily cover was not being provided adequately for areas in the northeast and northwest regions of the site. All solid waste received daily must be covered with a minimum of six (6) inches of compacted suitable natural earthen material by the end of that day's operation.

A leachate seep was observed at the base of the fill face in the northeast region. While this is not a violation, it should be corrected.

Your early compliance in this matter will be appreciated. In the event that you have any questions regarding compliance, please feel free to contact Mr. Johnson or me at the above number.

Sincerely,

Monte M. Nienkerk
Central Region Manager
